

Six Strand Sweets Conversion List

The following is a conversion chart to allow you to more easily use Six Strand Sweets in your stitching. These are ONLY suggestions and in no way a guarantee that they will be a perfect match. Six Strand sweets are *NOT* a replacement for other threads, merely another option. Your best option is to make a conversion for the chart that you are working on and then place the threads on the fabric that you intend to use. Swap the threads until you get a pleasing overall look. Feel free to use our Conversion Worksheet to keep track of your conversion changes.

Please note that if you want to give a variegated look through the use of DMC or other commercially dyed threads, stitch the suggested colors in 5 to 15 "X's" at a time and then switch to the next colors. If our numbers have an AND between them then try the variegated technique. If the number is alone or has the word "or" it means that either number(s) can be used.

SSS Color	Color (s)	Type	DMC	GAST	WDW
After Dinner Mint	Blackcurrant and Green	Multi-Color Variegated	3042 and 703		Thyme
Apples	Dk Red and Dk Green	Multi-Color Variegated	309 and 367		Noel
